

Cooking simplified is our brand statement and we achieve that by offering you simplified forms of Onion, Garlic, Ginger, Cashew & other vegetables for almost all its applications.

Onion, Garlic & Ginger are the mandatory members of most of the Indian recipes. While they bring the mouth-watering taste and aroma to the recipe, it is equally a cumbersome process to clean, peel, wash & cut to make it usable. When it comes to HORECA, it is a major issue. It needs long cleaning and cutting time, boiling or frying thereafter which involves manpower and time both - not too encouraging for the rush hours.

Swami Enterprises is operational in HORECA segment for the supply of Dehydrated Onion, Dehydrated Vegetable, Powders and Indian Spices. Our area of operations is domestic & overseas markets. Easy2Cook is our brand and label for the dehydrated range of food products including the Powders & Indian spices.

We take utmost care while sourcing the products to ensure best of the quality and grade of all our products. The manufacturing units that we work with are very much compliant as per the FSSAI standards to ensure the best of the product quality and packaging environment with proper hygiene. We offer various pack sizes according to the client's requirement.

WHY DEHYDRATED ?

- Considerable cost saving due to reduction in main ingredient cost, labour cost, cooking time & fuel
- Best natural option to preserve the perishables without any preservatives. No artificial colour & fragrance
- Removes enough moisture from the food so bacteria, yeast, and molds cannot grow – contains less than 5%moisture
- No compromise with aroma, flavour and pungency – no change in taste & preserves the nutrition
- Suitable for most of the cooking requirements. No pre-use hassles like peel, cut, clean, wash & chop
- Ready to use in just few minutes – its really quick at the time of rush hours.
- Long shelf life (app 9 to 12 months) – always available when required
- Less storage space & reduced kitchen space. Easy & Convenient to use
- No price fluctuations to face through the year.

TO ORDER, PLEASE CONTACT :

NOTE:

- Please inquire about the re-hydration process before using the product.
- The product results & yield mainly depends on the re-hydration process.
